

**SECURITY BOSS  
MANUFACTURING LLC**

## Best Pet Doors by Design™

Security Boss Manufacturing LLC specializes in the production of the very best quality pet doors for both residential and commercial environments.

Our products offer advantages that are unique in the pet door industry. We carry models for nearly every type of installation throughout your home.

Our Sliding Screen Pet Doors are engineered to work with nearly every sliding screen door design. The pet screen door works with your largest and smallest pets. Internal magnets and a heavy brush weather stripping creates a bug proof, pet friendly door.

SLIDING SCREEN PET DOORS

THE BEST PET DOORS™  
BY DESIGN™

# SLIDING SCREEN PET DOOR

## Sizing for the Sliding Screen Pet Door

### Sizing Guidelines:

Keep a minimum distance of 1.5" to 2" between the tallest dogs shoulders and the top of the swing door connection point.

Choose a pet door size that will allow for enough room on the sides. A simple way to test a given pet opening width is to open an interior door in the house to mimic the selected pet opening width. The biggest dog should not hit the sides.

### Sliding Screen Pet Door Model Reference Information

SIZE  
(Pet Opening)

Example of Breeds  
that use this size

SIZING GUIDANCE

**MEDIUM**  
9" w x 12" h

Perfect for all sizes of cats & small dogs. examples are Chihuahuas, Papillion, Dachshunds, Cairn Terriers, Chins, Lhasa Apso, Shih-Tzu, Bichons ...

*Shoulders of pet should not be higher than 12" off ground for proper clearance*

**LARGE**  
11" w x 16" h

All pets up to Terrier size: examples are Cavaliers, Pugs, Jack Russell, Fox Terrier, Toy Poodle, Schipperkes, Spaniels...

*Shoulders of pet should not be higher than 16" off ground for proper clearance*

**EXTRA LARGE**  
15" w x 24" h

Small height Labradors, Australian Cattle Dogs, Cocker Spaniels, Staffordshire Terriers, Pit Bulls, Large Bulldogs...

*Shoulders of pet should not be higher than 24" off ground for proper clearance*

**TALL EXTRA LARGE**  
14" w x 27" h

Good for male Labradors, German Shepherds, Golden Retrievers, Hounds, Weimaraners Water Spaniels, Collies, Rottweiler, Boxers...

*Shoulders of pet should not be higher than 27" off ground for proper clearance*

### Optional Brace Bar

*We offer a horizontal brace bar that connects to the top of the screen pet door and attaches to both frames of the sliding door. While a brace bar can help all sizes of pet screen doors, we highly recommend them for the two larger sizes in all circumstances.*

### Frame Color Options:

**Signal White** - Pure white

**Bronze** - Dark architectural brown
